Dear Alnoor,

With reference to your correspondence with Mrs. Pfitzer, the Scholarship Assistant to the Aga Khan Foundation, Switzerland, I should be grateful to hear from you every six months, i.e. mid way through the coming academic year and again at the end of each academic year.

I am particularly interested to learn of any academic problems you may be encountering, and also to learn of any advice you may wish to have regarding future academic years and finally any advice in relation to your future aspirations.

I look forward to hearing from you in due course.

Yours sincerely,

Dr. W. Storrar.
