

AGA KHAN FOUNDATION

March 3, 1989

Mr. Karim Ismail

Mississauga, Ontario
Canada.

Dear Karim,

I have received your letter of February 6 with the Ontario alumni association's exciting scholarship proposal. It is a very generous gesture and the Foundation would be happy to help you make it work.

The modalities you suggest are acceptable to us. The scholarship could work as follows:

- AKF would make the selection at the Scholarship Meeting in June from candidates who wish to study in Canada
- the maximum amount of the award in any one year would be CAD 10'000
- your donation would be made through AKFC
- in its award letter, AKF would notify the recipient student that the scholarship is made possible by a gift from the ISP Regional Association for Ontario
- AKF would send you information about the recipient, once awards had been made, so you could get in contact with the student.

As for your point 7 about AKFC being able to obtain matching federal grants for your contribution, you would have to bring this up with Nazeer Ladhani. I am not sure if this is possible.

If you are able to raise the first CAD 10'000 within the next couple of months, there is no reason why you cannot offer your first scholarship this year already. In that case, I believe it would be advisable to have the entire amount of the 1989 scholarship deposited with AKFC by June 15 at the latest, so that AKF is guaranteed the sum will be available when awards have to be paid.

Please let me know before the end of May whether you can offer a scholarship this year. I suggest that at that time you write us a formal letter about your gift and your commitment for subsequent years. If you have any questions before then, please let me know.

With all best wishes.

Yours sincerely,

Catherine
